

Dovolujeme si Vás pozvat na on-line přenos odborného semináře

v rámci projektu

„Sociální determinanty zdraví u sociálně a zdravotně znevýhodněných a jiných skupin populace - SODEZZ
(CZ.1.07/2.3.00/20.0063)“

Prof. S. A. Reijneveld, PhD, MD.

“Biological and social determinants of behavioural and emotional problems during childhood and adolescence”

30. ledna 2012 od 14:00

Cyrilometodějská teologická fakulta UP Olomouc, Univerzitní 22
3. patro, učebna U11
(on-line přenos z Košic)

About seminar:

Behavioural and emotional disorders constitute a major burden of morbidity during childhood and adolescence. Evidence is increasing on its various biological and social determinants. Examples of the first are the effects of early but also moderate premature birth, and of having chronic diseases. Examples of social determinant are adverse social circumstances in the family and the further living environment, and being a member of an ethnic minority. During this lecture, an overview will be provided of recent findings, and of the potential for prevention and treatment.

Seminář bude přenášén on-line na: www.sodezz.upol.cz
